Arman Drik

Front End Developer

Portfolio | LinkedIn | GitHub |

Front-End Developer with over 2 years of experience in developing and optimizing responsive web applications, achieving a 20% reduction in load times and a 15% increase in user engagement. Expertise in React.js, Typescript, and modern CSS frameworks. Passionate about delivering high-quality code and intuitive user experiences.

Project (react.js)

Maxx Coffee - React.js, Typescript, and tailwind

GitHub Link | Live Demo Link

- Developed a fully responsive coffee store app, integrating product data from an external API using React.js, Typescript, and Tailwind CSS.
- Engineered a robust state management solution with React's Context API, improving data flow and user interaction efficiency by 20%.
- Implemented Firebase authentication, securing the user registration process and enhancing user trust.

Game Company - React.js Game Store

GitHub Link | Live Demo Link

- Crafted a visually appealing and responsive Game Store application using React.js and SASS, enhancing the user experience.
- Implemented dynamic animations with react-reveal, leading to a 15% increase in user engagement.

Ahil Landing Page - React.js and Material Design

GitHub Link | Live Demo Link

- Developed a real-time cryptocurrency tracking app using React.js, HTML, and CSS, featuring data retrieval via Axios from a public API.
- Implemented a dark/light mode toggle using React Context API and integrated i18next for seamless bilingual support, enhancing user personalization.

Crypto Currency - React.js, HTML, and CSS

GitHub Link | Live Demo Link

- This is a project you can see real time data that comes from api with axios. Implement by HTML, CSS and React.js.
- Implemented interactive data visualization using Chart.js and integrated seamless navigation with React Router.
- Optimized the app for responsiveness, ensuring a consistent user experience across all devices.

Education

BA in Computer Engineering, Islamic Azad University, Rasht

February 2019 — September 2023
